Fitted Garages

INSPIRATIONAL GARAGE INTERIORS

A GARAGE YOU CAN BE PROUD OF!

When I ask people which part of their house is the most untidy and frustrating, almost invariably it's the same answer – the garage. The reasons are always the same too; clutter, everything on the floor, can't find anything, no space, dusty, cold, dumping ground are often the reasons I am given.

In fact, we've got so used to thinking of our garage in that way it's easy to overlook its potential. To transform your garage into a stunning and practical room isn't an indulgence, it's simply making sure you don't waste expensive space. After all, why shouldn't your garage be as enjoyable and practical as the rest of your home?

A detached garage is one of the most expensive parts of your property to build. Even if it's sharing walls with other parts of the house, then it's still prime ground floor space – so it makes sense to make the most of it.

Most of us wish we had more room in our homes and go to great lengths and cost to get it; fitted kitchens, bathrooms, bedrooms, home studies – even the attic, but until now the garage has just not been thought through.

When we created the 'Fitted Garage' concept we thought of all the different ways in which everyone uses their garage. Our aim is simple – to provide the best quality products backed up by the highest levels of design and service – this has been recognised with our coveted Red Dot International Design Award, and the prestigious Queen's Award for Enterprise.

The following pages will demonstrate how we have helped some homeowners to create their ideal garage. Simply call us to see how one of our experienced garage planning experts can help you create yours.

Dominic Wishlade
Managing Director

DURA[®]
Fitted Garages

FIVE GREAT REASONS TO TRANSFORM YOUR GARAGE...

- Create your dream garage with everything in its place
- Add value to your home and gain extra space without the cost of building
- Reclaim your garage, de-clutter and have somewhere to park your car
- Store expensive tools, garden and sports equipment safely and securely
- Create the perfect lifestyle room – a gym, workshop, or a safe play area

TRANSFORM YOUR GARAGE AND ADD VALUE TO YOUR HOME

Do you ever wish you had more space in your home? Release the potential of your garage and turn it into a stunning and practical room free from clutter – it's like extending without building! A Dura Fitted Garage can also add value to your home. Our wide range of products will allow you to create a flexible room useful and safe for all of the family, however you use it, and have space to park the car.

For a design consultation, call our design experts on **01280 700 563**.

“ We are very pleased with the quality and flexibility of the Dura product. It looks great and has allowed us to make more efficient use of the available space changing our double garage into a room which we now use much more. ”

Mr Capon, *Surrey*

TURN YOUR DREAM GARAGE INTO REALITY

Whatever you want your garage to look like, we can help you realise your dream.

Whether you're a car or bike enthusiast, a gardener, or even want to use your garage as a gym, we can design a solution to meet your needs. Our range of award-winning cabinets is completely modular so that you can have the exact design that you want for your own garage.

Secure expensive tools and equipment safely and securely in these high quality cabinets that not only look stunning but are built to last in the tough garage environment.

For a design consultation, call our design experts on **01280 700 563**.

THE GARAGE TO SUIT YOUR LIFESTYLE

If you have an active lifestyle with lots of equipment, our wall cladding system is ideal and integrates beautifully with Dura cabinets and flooring. Hazardous household chemicals and expensive tools can be locked safely and securely in the cabinets whilst more bulky items of sports and leisure equipment can be hung; off the floor and onto the walls.

This system is made from tough PVC, so is easy to clean and won't get damp. It's completely flexible – simply add as many hooks or baskets as you need and move them where you want – ideal for golf clubs, tennis racquets, gardening equipment as well as tools and bicycles.

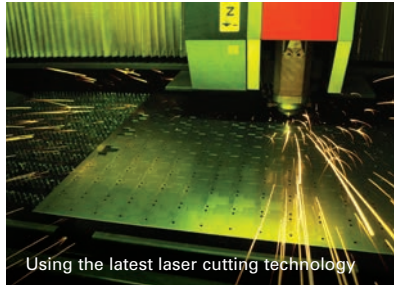

“ I don't know how anyone has ever managed without a garage like this ”

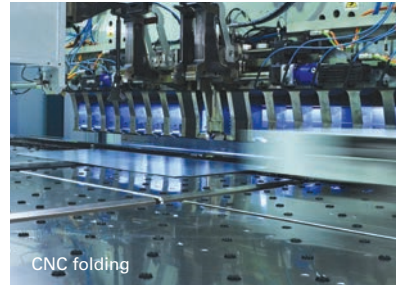

Mr Warburton, *Manchester*

YOUR GUARANTEE OF QUALITY AND STYLE

Our cabinets are used by the most prestigious automotive brands in their own workshops around the world, so you can be sure of the quality of our products. We've built them out of heavy-gauge steel to endure the most demanding garage environment and given them a tough epoxy coating.

In fact, we are so confident in the quality of our product that we offer a complete 100%, no quibble, satisfaction guarantee and a 10 year warranty (*please ask for details).

I would recommend Dura to anyone that aspires to work and play in a professional looking garage.

THE PERFECT FLOOR

You wouldn't believe what a difference the right floor can make to your garage! Say goodbye to flaking garage floor paint and dusty cold concrete – we have a wide selection of flooring solutions from PVC interlocking floor tiles to porcelain tiles and resin flooring. After listening to your requirements our design experts can advise you on exactly the best finish for your needs.

“ The product quality is excellent... The service was first-rate and thorough in all respects... I'm very proud of my newly fitted garage and have already recommended Dura to my family, friends and even the postman! ”

Mr Coleman, Monmouthshire

PERSONALISING YOUR GARAGE

Dura cabinets are finished in a smart silver coating as standard but we also offer a complete personalising service. From custom colours to graphics of your choice through to tools in control foam, we can advise you on any aspect of your garage interior and how to make it individual to you. We can even help you to source other items you might like in your garage.

You can be confident that when it comes to the design of your garage you are dealing with the experts. Dura are winners of the prestigious Red Dot design award and the British Interior Design Association's award for outstanding design.

“ I would like to express my complete satisfaction with your superb product. The standard of service from the survey to installation was exceptional ”

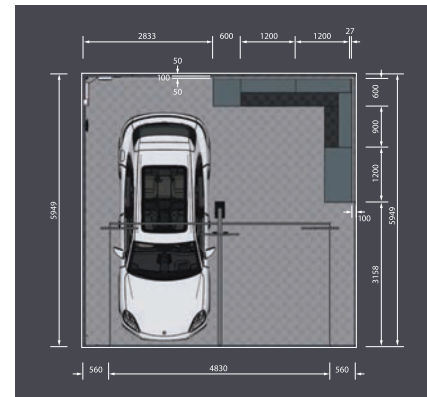

Mr Lister, *Warwickshire*

YOUR COMPLETE DESIGN SERVICE

If you think of your garage as more of a 'lifestyle' room it opens up lots of possibilities; from the perfect home for your favourite car to your very own gym. Our designers are here to help – as creators of the 'Fitted Garage' concept and European market leaders we have unrivalled expertise at your disposal.

Our designers will prepare the perfect layout from your architect's plan or by carrying out an on-site survey. This no-obligation service can be very valuable, enabling you to see how much extra use and enjoyment you will get from your garage.

For a design consultation, call our design experts on **01280 700 563**.

“ Your Company has been a real pleasure to deal with – from the installer to the actual product ”

Mr Riley, Surrey

PROFESSIONAL INSTALLATION - JUST RELAX AND ENJOY YOUR NEW GARAGE

You can install your own garage or you can sit back and relax and let our professional installers transform it for you. We use the same skilled team that install workshops for luxury car brands worldwide, so you can be sure that your garage will be expertly fitted.

Our professional installers will unpack, build up, align and level the cabinets before fixing them securely into place. Flooring and wall cladding will be cut and fitted accurately, leaving you with a pristine garage ready for you to enjoy.

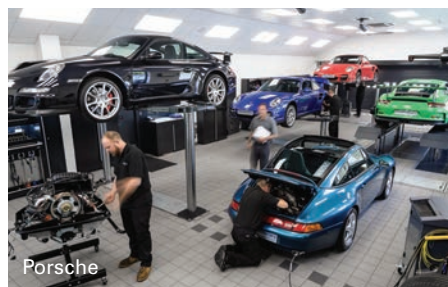

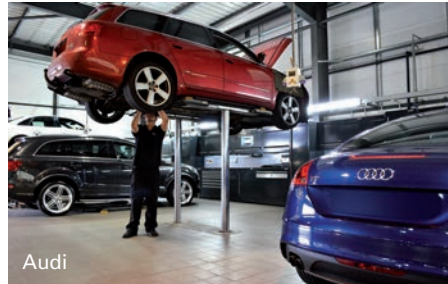

For your free no obligation survey or quotation,
